## Cavite City health officials sound alarm on rising leptospirosis cases

**CAVITE CITY, Cavite (PIA)** — Health officials in Cavite City are warning the public against entering floodwaters which pose a risk of contracting leptospirosis.

At an emergency meeting with the Liga Ng Mga Barangay last September 2, Dr. Jeffrey dela Rosa, head of the City Epidemiology and Surveillance Unit (CESU), sounded the alarm about the rising leptospirosis cases in the city.

In a statement, CESU Cavite City advised residents to refrain from getting into floodwater to prevent contracting the virus.

As of September 1, the city has reported eight (8) leptospirosis cases, with three (3) currently being treated in local hospitals and one (1) in recovery. Meanwhile, four (4) have already died due to complications.

The Department of Health – Center for Health Development (DOH CHD) CALABARZON has also advised the public against bathing or playing in floodwaters to avoid risk exposure to leptospirosis. In cases where exposure and getting submerged in floodwater will become unavoidable, the DOH advises consultation at health facilities within 24 to 48 hours.

Although a known antibiotic for preventing and treating mild leptospirosis, the DOH reminds that patients must first consult with a doctor for proper dosage and drug administration. *(PB-PIA CALABARZON, with reports from Cavite City Health Office Epidemiology and Surveillance Unit and DOH CHD CALABARZON)*

## ON THE WATCH

Rico Osmeña

IS CEBU being BLACKMAILED by power generators?" The Cebu Provincial Government should adopt small-scale, modular energy systems instead of relying on large and centralized power plants.

This was proposed by DR. Bryan To, senior economic advisor for Investment and Promotions of Governor Pamela Baricuatro.

To in an interview with Karon SUGBO radio program (Today CEBU) hosted by RICO MIRASOL OSMEÑA said the proposal include containerized hydrogen units capable of powering hundreds of homes.

## Small-scale, modular energy system pushed for Cebu

"We are an archipelago, which actually calls for small-scale modular systems," he stressed.

He disclosed that the province is piloting hydrogen power, which would draw energy from the air, in partnership with the Singapore government.

This venture has been endorsed by President Ferdinand Marcos Jr himself.

Hydrogen power could cut energy costs by roughly 80 percent compared to traditional sources, " To added.

In a separate interview with Department of Energy- Visayas Regional Director Renante Sevilla, he said that by this year, the 150 Megawatts Solar power plant will begin.

"Hopefully, this year all the papers are already in place," Sevilla said. The Solar power plant is located in barangay Talisay, Daanbantayan, Cebu.

To cited that the province is also studying combinations of hydrogen with solar technology to further

reduce costs, noting that both hydrogen infrastructure and solar panel prices have fluctuated.

The moves towards alternative power came as unreliable and costly electricity threatens to derail Cebu's investment-attraction efforts.

But To noted that foreign power investors routinely ask about labor, energy and water costs.

Just yesterday, September 1, power supply in the Visayas has again declared with Red and Yellow alerts.

## Cebu...hit by acutely unhealthy air quality

Aside from the earthquake, typhoon Tino, power interruptions....now CEBU for the past four days had its "very to acutely unhealthy air quality."

This as the Environmental Management Bureau in Central Visayas (EMB-7) continues to monitor local ambient air quality to evaluate the presence, extent, and potential health impacts of the reported haze across the region.

As of this writing, the current air quality index (AQI) has reached to 252 which is classified as ACUTELY UNHEALTHY.

EMB-7 advised that PEOPLE should limit outdoor exertion. People with heart or respiratory diseases such as asthma, should stay indoors and rest as much as possible. Unnecessary trips should be postponed. Motor vehicle use may be restricted. Industrial activities May be curtailed.

EMB-7 has identified the current haze as a case of

transboundary pollution, with smoke and fine particulate matter from forest fires in Indonesia being carried across national borders.

EMB-7 Engr. Arthur Nino Calupig, an air quality monitoring specialist explained that pollutants from fires can travel with prevailing winds, carrying gaseous pollutants as well as particulate matter, dust, and ash over long distances.

The current event is being associated with the southwest monsoon, or Habagat, which is carrying pollutants from Indonesia toward the Philippines. A similar occurrence was recorded in October 2015.

The current trajectory projections indicate that the haze May affect parts of Metro Cebu, including the cities of Cebu, Mandaue and Lapu-Lapu. It May also move toward Camotes island and parts of Eastern Visayas.

Rain May help clear suspended particles from the

air, but pollution could build up again if fires continue and the Habagat carries additional smoke toward the Philippines.

Temperature, humidity, wind speed and direction, and terrain can all influence how pollutants move, disperse or accumulate.

Those who need to go outdoors are advised to use a properly fitted mask, ideally an N95 or KN95, to reduce exposure to fine particulate matter.

Cebu City Mayor Nestor Archival has temporarily suspended face-to-face classes in all public and private schools until Thursday.

Cebu Governor Pamela Baricuatro said the Provincial Disaster Risk Reduction and Management Office continues to monitor and coordinate on the situation.

She added that authorities would be guided by recommendations from the Department of Environment and Natural Resources and the PDRMO should the air quality worsen further. **(By RICO MIRASOL OSMEÑA)**

## Cebu host 19th East Asia Tourism Forum (EATOF) as Gov PAM stressed Tourism as a powerful force

The 19th General Assembly of the East Asia Inter-Regional Tourism Federation (EATOF) kicked off on Wednesday in Cebu.

The international gathering brings together EATOF member regions which includes Cebu Province, Philippines; Gangwon State, Republic of Korea; Tottori Prefecture, Japan; Tuv Province, Mongolia; Sarawak, Malaysia; Quang Ninh Province, Vietnam; Luang Prabang Province, Laos; and Siem Reap Province, Cambodia. The event aims to strengthen cooperation in tourism, culture, connectivity, investment, and sustainable destination Development.

"Tourism can be a powerful force for friendship, economic opportunity, cultural understanding, and sustainable development," said Cebu Governor Pamela Baricuatro in her welcome remarks.

The governor noted that the General Assembly builds on the work started last year when Cebu hosted the EATOF Standing Committee Meeting in preparation for this year's gathering.

As destinations navigate a rapidly changing tourism landscape, Baricuatro said cooperation among regions has become even more important.

Travelers today are looking for more meaningful experiences, while communities expect tourism to create greater opportunities for their people. At the same time, destinations are confronting challenges brought by climate change, environmental pressures, connectivity, and rapid development.

"These challenges remind us that we cannot build the future of tourism alone," the governor added.

She cited EATOF provides its members regions with a platform to learn from one another, exchange solutions, build partnerships, and develop initiatives that can directly benefit their respective communities.

For Cebu, Baricuatro sees opportunities for stronger collaboration in tourism and cultural exchanges,

sports tourism, connectivity, investment, sustainable destination development, and people-to-people exchanges.

"We hope that this General Assembly will not only produce resolutions and agreements, but will create partnerships that can be translated into actual programs, exchanges, investments, and opportunities for our people," she said.

"As host, Cebu also hopes to share with you what makes our province special -- not only our beaches,

mountains, heritage, cuisine, and festivals, but most importantly, our people and our culture of hospitality," the governor said.

The 19th EATOF General Assembly continues in Cebu with meetings, symposiums, networking activities, and discussions bringing together government leaders, tourism officials, industry stakeholders, and partners to exchange ideas and explore opportunities for stronger tourism cooperation and sustainable development across EastAsia. **(By RICO MIRASOL OSMEÑA)**

## Cavite Service Caravan reaches Naic, delivers vital government services

The Provincial Government of Cavite continued its commitment to bringing accessible and responsive public services closer to communities as the Cavite Service Caravan successfully rolled out its fifth leg on September 1, 2026, at Naic Town Plaza.

Led by Governor Abeng Remulla, the service caravan further strengthened the provincial government's commitment to inclusive and people-centered governance by delivering a wide range of frontline services directly to Caviteños.

The one-stop caravan brought together provincial government offices, national government agencies, and partner organizations to provide a comprehensive array of programs and assistance designed to address the immediate needs of residents, particularly those with limited access to essential government services.

Among the key services offered were free medical consultations, dental and oral health care, laboratory services including electrocardiogram (ECG) and fasting blood sugar tests, pharmacy assistance, fluoride varnish application for children, and emergency medical support to ensure prompt response to health-related concerns.

Employment and livelihood opportunities were likewise highlighted through job matching activities, career coaching sessions, and assistance from participating agencies such as TESDA, PSA, DTI, SSS, OWWA, PNP, Pag-ibig, Philhealth and the Land Bank of the Philippines. Entrepreneurship development, cooperative assistance, and the promotion of locally made products through a trade

fair also formed part of the caravan.

The activity also extended agricultural support services, including the distribution of vegetable seeds and seedlings, educational materials, and technical assistance for farmers and fisherfolk to help strengthen local food production and sustainable livelihoods.

Residents also benefited from various social services, including social welfare assistance, family planning counseling, legal aid, and specialized support for persons with disabilities. Veterinary services such as free anti-rabies vaccination, deworming, and pet consultations were likewise made available.

To further promote digital inclusion, the caravan featured digital literacy programs, internet connectivity services, and information booths that raised awareness of various government programs and services.

Joining Governor Remulla during the sixth leg of the Cavite Service Caravan was Vice Governor Ram Revilla Bautista. They were warmly welcomed by Naic officials led by Vice Mayor Jacinta Remulla, and some members of the Sangguniang Bayan.

As the Cavite Service Caravan continues its province-wide rollout, the Provincial Government of Cavite remains steadfast in its mission to make government services more accessible, efficient, and responsive while strengthening local government capabilities through strategic assistance and resource support, ensuring that every Caviteño has greater access to quality public services closer to home. — **OPIO**
